Safeguarding

Safeguarding training has been updated to reflect the changes to NMS.

Group A (Level 1) Safeguarding Awareness

Safeguarding Awareness courses provides the knowledge and skills needed to safeguard children. It describes the common types of abuse, how to recognise them, and how to respond to concerns. It also explains how to correctly report concerns.

This mandatory training should form part of an employees' induction for all staff.

It is required for all employees who may or may not directly work with children but may work in a building where a childcare provision is based; or members of a Board / Committee who support a childcare provision.

Group A training can be accessed online via the link below:

[Group A Safeguarding | Social Care Wales](#)

Group B (Level 2) Safeguarding Intermediate Course

Intermediate Safeguarding Children courses help to increase existing safeguarding knowledge and teach more about what is involved in the safeguarding process. The course shows how to identify abuse, and report concerns as well as learn more about the safeguarding structure, recognising risks and what happens after a referral to social care has been made.

This course is required for all employees who work directly with children.

Group C (Level 3) Advanced Safeguarding Course

Advanced Safeguarding courses teach more about what the role involves and helps to understand the safeguarding process in more detail. The course uses a variety of written activities and interactive exercises to help review and develop the safeguarding procedures

within the setting and ensure that all staff members understand their responsibilities towards safeguarding children. Includes topics relating to allegations of abuse against a staff member and how to deal with these, understanding key legislation and guidance which underpins settings policy for children's safety and welfare, roles to play in the multi-agency child protection process including case conferences and providing written reports. This training is required for those in contact with children and have ultimate safeguarding responsibility for the provision.

Principles of Observations

This session is designed for all childcare practitioners and aims to deepen your understanding of observation as a powerful tool for enhancing the quality of your practice and provision.

Together, we'll explore the importance of truly getting to know each child and how effective observation supports their progress.

You'll have opportunities to reflect on your current approaches, identify areas for growth, and consider practical strategies for improvement.

The session will conclude with a focused discussion on effective observation formats and processes.

This course is for all childcare practitioners

Course Title	Date	Time	Venue
Principles of Observation	16/09/2025	1.00 - 3.00pm Or 6.30 – 8.30pm	Microsoft teams

Observations in Practice

This session builds upon the learning gained from Principles Of Observation training.

Together, we will consider how effective observation supports each child's progress by helping you identify their interests, needs, and next steps.

There will be opportunities to reflect on your current observation practices—what's working well, and discover where might there be opportunities to enhance the quality, consistency, and impact of your observations?

This course is for all childcare practitioners

Course Title	Date	Time	Venue
Observations in practice	23/09/2025	1.00 - 3.00pm Or 6.30 – 8.30pm	Microsoft teams

Outdoor Maths Part 1 and 2

In these two sessions we will:

- consider our understanding and confidence in developing our mathematical provision and making the most of the outdoors spaces in our settings
- consider a range of open-ended ideas for adapting to children's interests as part of a playful approach to learning maths concepts
- consider how to make the most the most of any outdoor space as a context for maths- the use of green spaces and natural materials
- build up a bank of mathematical experiences that are child led and child initiated , authentic and purposeful

These sessions have been adapted from the training provided spring 2025 through Multiply funding.
This course is for all childcare practitioners and runs over a two-week period.

Flying Start Assessment Procedures Part 1 and 2

In these sessions, we will work together to become familiar with the new on-entry and on-going assessment requirements for Flying Start Childcare in Torfaen.

These assessments are designed to support a holistic understanding of each child's development from the outset, focusing on areas such as speech, language and communication, social-emotional well-being, and physical development.

We will look at strategies to ensure consistent, evidence-based approaches are used to gather insights that inform tailored support and planning, ensuring every child receives the best possible start.

The sessions will explore how our observations and assessments will be used to inform planning, tailor support, and celebrate progress-leading to an effective record keeping process that ensures that this information is documented accurately and consistently, providing a valuable resource for reflective practice, sharing with families, and supporting transitions.

This course is for all childcare practitioners working in a Flying Start setting and runs as a series over a two-week period.

Professional Learning Module - Transitions

The Professional Learning Modules have been developed by the Welsh Government to support current practice in early education and the implementation of Curriculum for Wales from September 2022.

Torfaen Early Years have successfully offered 4 of the modules as “Collaboration Forums” and are now able to offer the opportunity to participate in the next forum to all childcare providers.

Attending the collaboration forums offers childcare professionals many benefits to their Continuing Professional Learning ...

- the ability and space for reflection and discussion,
- the opportunity to become more involved in learning
- a place to harness creativity, community, and foster engagement
- and the opportunity to tap into the knowledge and experience of your peers, while engaging with the core content of the learning.

The forum for autumn 25 aims to support your understanding of **transitions** by enabling reflection on:

- what transitions are
- how transitions may affect children's personal, social and emotional wellbeing
- effective planning for the many transitions children encounter
- your current practice and how it might be improved to allow for more successful transitions for children and their parents or carers.

This course is for all childcare practitioners and runs as a series over a four-week period

This is a 4 Part series

Prevent Awareness

The Prevent Duty aims to stop people from becoming terrorists or supporting terrorism. While it remains rare for children and families to become involved in terrorist activity, children from an early age can be exposed to terrorist and extremist influences or prejudiced views. As with other forms of safeguarding, early intervention is always preferable. This course will support settings with guidance towards policies and a better understanding of Prevent.

Environmental Rating Scales

Environmental Rating Scales Workshops

The rating scales can provide us with valuable information about the aspects of quality provision within our settings. However, without understanding the reasons and rationale behind for the individual items and considering how change can impact the quality of provision for children, any changes made are, at best, short lived and not thoroughly incorporated into daily practice.

Each of the workshops begin with a thorough examination of current research and thinking into each of the item's key principles. There are many opportunities for reflection on current practice and opportunities to share thoughts with the other attendees. Each session

concludes with a detailed run through of how the item is then observed and scored for the pertinent scale.

Target audience-all childcare settings required to undertake a rating scale observation, or any childcare provider/ maintained Nursery staff interested in Quality Improvement tools.

Taste Ed – Introduction to Sensory Education

What is TasteEd?

TasteEd is a charity that empowers educators with practical training and tools to deliver sensory food education. TasteEd activities allow children to explore, enjoy, and try fresh fruits and vegetables using their five senses.

Core Principles:

- “No one has to try” and “No one has to like” removes pressure, often encouraging children to willingly taste at their own pace.
- Children are able to develop their own taste preferences and build confidence in trying new foods.
- Sessions are engaging, inclusive, and provide positive food experiences in a safe environment with trusted adults and peers.
